

Day two- Adverbs.

An adverb is a word that modifies a verb, adjective or another adverb. What does that mean? An adverb describes actions and other descriptive words. You might be thinking isn't that what an adjective does? The English language can be confusing. An adjective only describes a noun or pronoun, an adverb describes everything else. An adverb also answers a question where, when, how and how often.

Example:

The curious toddler quietly opened the front door.

Curious is an **adjective** because it is describing the toddler (the noun).

Quietly is the **adverb** because it is describing how the toddler opened the door.

Complete the following sentences by adding in the correct adverb.
