

Reading week 4

This week we are going to read 'A Tale of two Feathers'. Before you read the book look at this video about [nocturnal animals](#).

1. After reading the book carefully make a list of nocturnal animals:

barn owl
voles
moths
fishing cats

2. Now make a list of diurnal animals:

lyre bird
Kookaburra
howler monkeys

What is the difference between each type of animal?

Nocturnal animals sleep during the day and come out at night and diurnal animals sleep at night and come out during the day.
