

**Creating Art with natural
resources.**

We're going to create a piece of Artwork using natural materials.

- + You will need to:
- + Decide on the content of your picture. For example an animal or a landscape.
- + Think about the different textures, colours and shapes you will need to use to create the effect.
- + Collect natural materials. For example twigs.
- + Will you use all natural materials or will you combine with a drawing?
