bottles?

YES or **NO**

Plastic
bottles and
containers?

YES or **NO**

Clean food containers and cans?

YES or NO

Aerosols

YES or **NO**

Clean aluminium
foil

YES or **NO**

What can't
you
recycle at
home?

Clothes

Aerosol
cans

Plastic

What can't
you
recycle at
home?

Chocolate
wrappers

Nappies

Car batteries

Normal
batteries

Crisp
packets

Your task:

- Choose something/more than one thing in your house that you would normally throw away/recycle.
- Instead of doing that, formulate a plan to turn that waste product into something useful.
- You never know you might invent something that everyone will want/need.
- Once your materials are available then actually make your creation.
