

Tuesday 2nd March 2021

Learning Objective To create a poster for an invention for British Science Week.		
Success Criteria	Self Assessment	
<ul style="list-style-type: none">To decide on a topic, you would like your invention to be based around. E.g. something to prevent global warming, something to stop pollution, a toy, a game, something medical.		
<ul style="list-style-type: none">To research inventions which have already been created which link to your topic.		
<ul style="list-style-type: none">To create a poster for your invention which may be entered into the British Science week competition.		

5-14 March
**British
Science
Week
2021**

It is British Science week! We have been tasked with designing an invention we would love to see come to life! This could be something that helps the environment or overcomes a global problem.
