<i>Learning Objective</i> <i>To create your own support network visual.</i>	
<i>Success Criteria</i>	<i>Self-Assessment</i>
<ul style="list-style-type: none"><i>To define trust.</i>	
<ul style="list-style-type: none"><i>To explain why talking can help to make people feel better.</i>	
<ul style="list-style-type: none"><i>To use an outline of a body to create a support network visual.</i>	

What is the dictionary definition of trust?

What does trust mean to you? Do you think you could define it better?

Why is talking so important in making people feel better?

Below I would like you to identify who your support network is:

The head of the body is where you will write the people at home you talk to, the body represents SOS contacts (Emergency services, Childline, NSPCC, wider community services). The arms show other adults (teachers, club leaders). The legs will show additional support (friends, hobbies).
