*Use the link above for inspiration. Choose one of the topics that have been covered in the video and create two pieces of work to accompany it. The first piece will be the problem that needs fixing and will be created in black and white. The second piece will be the solution to the problem and will be presented in colour. You can choose to present your pieces in any way you wish. For example: Through art, through a poem, through key words with accompanying pictures to name but a few. It's completely your choice!*
