

*Learning Objective*

*To join clauses using appropriate contrasting conjunctions.*

*Success Criteria*

*Self-Assessment*

- *Explain the purpose of a contrasting conjunction.*
- *Identify positives and negatives linked by contrasting conjunctions in sentences.*
- *Select appropriate contrasting conjunctions to link clauses.*

Molluscs

*Hundreds of species of molluscs live in the Great Barrier Reef due to the fact it has shallow waters. Some molluscs (such as clams) have a hard shell consequently they are protected from predators. They are widely hunted therefore they have learnt to hide well in the reef's cracks or in the sandy seabed. Furthermore, other molluscs (such as the octopus and squids) are predators themselves and as a result they do not need shells.*

Algae

*Algae are plants however they don't have roots or stems. Although algae can be tiny, they play a huge role in the ocean food web. Smaller algae provide an important food source whereas larger algae provide shelter for small ocean creatures. Some algae grow onto the coral in the reef but other species live in the open ocean.*

<i>it was pouring with rain</i>	<i>I watched TV</i>	<i>I played outside</i>	<i>my teacher always tells me to</i>
<i>the dog chased the cat</i>	<i>I never underline the date and title</i>	<i>I needed to do my homework</i>	<i>it was tired from a long walk</i>

Challenge: make a sentence using 2 of the clauses above and a contrasting conjunction.

Reorder the sentence using the same clauses in a **different order**.

How do you do this? What **rule** can you make? Use examples to show your rule being used.

<i>it was pouring with rain</i>	<i>I hate the taste of them</i>
<i>it was a bright and sunny day</i>	<i>I watched TV</i>
<i>it was tired from a long walk</i>	<i>I never underline the date and title</i>
<i>I forgot my sunglasses</i>	<i>I needed to do my homework</i>
<i>the dog chased the cat</i>	<i>my teacher always tells me to</i>
<i>my mum made me eat my vegetables</i>	<i>I played outside</i>
<i>although</i>	<i>but</i>
<i>however</i>	<i>even though</i>
<i>although</i>	<i>but</i>
<i>however</i>	<i>even though</i>
