

Wednesday 7<sup>th</sup> July

**Learning Objective:**

To explain that I need light to see things, and that dark is the absence of light.

**Success Criteria:**

- Identify a range of light sources.
- Explain that dark is caused by the absence of light.
- Explain that I need light to see things.

Draw or write about the things you already know about light.

Tick the following cards that are sources of light.

candle

flowers

boots

fire

football

lantern

lightning

scooter

television

Sun

toothpaste

ice cream

dog

lighthouse

pencil

cheese

bucket

lamp

apple

ice cream

torch

fireworks

Moon

spanners

*Complete the paragraph below by filling the gaps to show what you have found out about light and dark.*

A light \_\_\_\_\_ is something that makes light. Some examples of light sources are \_\_\_\_\_.

Some objects seem to make light but are not really light sources. The moon is not a light source because it reflects \_\_\_\_\_.

Dark is the \_\_\_\_\_ of light. It is dark at night time because light from the sun is not visible. When it is dark, there is no \_\_\_\_\_ to illuminate objects, so we \_\_\_\_\_ see them. We need light to be able to see things.
